Forecast for Sunday 02 Jun 2024

Weather: Any early mist and fog patches will soon clear to leave a fine day, with plenty of sunshine throughout. A fine end to the day, with some evening sunshine, although becoming hazy, with increasing amounts of cloud after dark.

Chance of cloud-free hill tops above 600m: 100% throughout.

Low cloud and visibility: Cloud free summits, until after dark. Very good visibility, with distant hills and landmarks clearly visible. Locally poor visibility in any mist and fog patches early morning.

Forecast for Monday 03 Jun 2024

Weather: Dry with occasional clear spells overnight, although becoming increasingly cloudy from the northwest, especially towards dawn. A rather cloudy and murky start on Monday, with mist and low cloud on the summits. However, the cloud should lift, thin and break up to give some bright or occasional sunny spells into the afternoon. A fine end to the day, with clearer skies developing after dark.

Maximum wind: Northwesterly 10-15mph, gusting to 20mph at times, especially on the summits.

Chance of cloud-free hill tops 600m: 40% early morning, improving to 95% in the afternoon.

Low cloud and visibility: Cloud bases down to 500m early morning, lifting to above the summits by mid-morning. Very good visibility generally, but locally poor in low cloud and mist early morning.

Temperature: **Valleys:** Plus 8 Celsius, becoming Plus 19 Celsius.
At 600m: Plus 8 Celsius, becoming Plus 12 Celsius.
Freezing level: Above the summits.
